Subject : Re: Northern outfall works - sub estimates for linking the existing sewage lines with the outfall lines in Jalapuri and Yadavagiri valleys.

Adverting to Government Order No.L.14007-12/I.T.B.18-52-19 dated 29/30-1-1954 according sanction to an estimate for Rs.6,00,000/- for the northern outfall works in Mysore City, I write to state that the work of laying outfall lines as per sanctioned provisions has been taken on hand and is in good progress. Till now, sewage from sewered portions of Yadavagiri and Jalapuri valleys was flowing in the open valleys. Consequent on the commencement of the outfall works, it is found necessary to prevent this open flow and divert the same to the outfall lines of the respective valleys. Hence two sub estimates for Rs.13,500/- and Rs.5030/- have been got up for providing, laying and linking the lines. This was not originally provided for in the main estimate. But as these works are necessary, it is proposed to meet the same under the sanctioned estimate - out of the savings under the provision for stone ware pipes, which will be more than Rs.25,000/- on account of the purchase rates being lower than the estimated rates. The rates provided for in the two sub estimates are as per accepted tendered rates of the Northern outfall works, and for non-tendered items, current schedule rates have been provided for.

In view of urgency, these works have been taken on hand with the approval of the Board as per Trust Board resolution Nos. 285 dated 24-11-54 and 208 dated 29-9-1954 respectively (copies enclosed for ready reference) and the works have been entrusted to the tendered contractors of the respective outfall lines. Pending modification of the main

P.T.O

sanctioned estimate, approval is solicited to the action taken and also to the sub estimates now forwarded.

All the necessary enclosures accompany.

Yours faithfully,

(S.Linganna)
Chairman.
